

Regional Land Partnerships Approved Projects As at 01/07/2022

Geographical Area		Project Details					Management Unit summary
State	Management Unit	Service Provider	Project	Primary Outcome	Investment Priority	Total project duration	Total Investment (on-ground and core services)
Australian Capital Territory	Australian Capital Territory	Environment, Planning and Sustainable Development Directorate - Departmental	Protecting and connecting endangered woodlands in the ACT	Outcome 4 : Threatened Ecological Communities (EPBC Act)	White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland	60 months	Up to \$5.240 million
			Safe haven for Quolls and Bettongs in the ACT	Outcome 2 : Threatened Species	Dasyurus viverrinus (Eastern Quoll, Luaner) [Endangered]; Bettongia gaimardi (Tasmanian Bettong, Eastern Bettong)	60 months	
			Reducing the impacts of Sambar Deer in the ACT's Ramsar site – the Ginini Flats Wetlands Complex	Outcome 1 : Ramsar Wetlands	Ginini Flats Wetland Complex	48 months	
			Better land management practices – building evidence for practice change: social research on soil acidity management practices	Outcome 5 : Improved Soil, Biodiversity and Vegetation practices	Soil Acidification	60 months	
			Resilient farms: supporting adaptation to climate and market variability	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	48 months	
New South Wales	Central Tablelands	NSW Local Land Services (Central Tablelands)	Woodland Birds on Farms - targeted recovery efforts for the Regent Honeyeater and other threatened woodland birds	Outcome 2 : Threatened Species	Anthochaera phrygia (Regent Honeyeater) [Critically Endangered]	60 months	Up to \$8.226 million
			Sustainable farmers adapting to market and environmental risks	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	
			Searching for Swainsona - Identify (and protect) new populations of Swainsona recta, the small Purple-pea	Outcome 2 : Threatened Species	Swainsona recta (Small Purple-pea, Mountain Swainson-pea, Small Purple Pea) [Endangered]	60 months	
			Living on the edge - managing invasive species threats to the Greater Blue Mountains World Heritage Area	Outcome 3 : World Heritage Properties	The Greater Blue Mountains Area	60 months	
			Driving corridor connectivity in the Central Tablelands	Outcome 4 : Threatened Ecological Communities (EPBC Act)	White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland	60 months	
	Central West	Central West Local Land Services	Reaching out to the Regent Honeyeater	Outcome 2 : Threatened Species	Anthochaera phrygia (Regent Honeyeater) [Critically Endangered]	48 months	Up to \$7.281 million
			Preserving Grey Box Grassy Woodlands in Central West NSW	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Grey Box (Eucalyptus microcarpa) Grassy Woodlands and Derived Native Grasslands of South-eastern Australia	60 months	
			Securing the Swift Parrot	Outcome 2 : Threatened Species	Lathamus discolor (Swift Parrot) [Critically Endangered]	48 months	
			Malleefowl matter	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	48 months	
			Sustainable farming systems for climate change and market merit - farming for climate change, traceability and provenance	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	
			Progressing the Small Purple-pea in Central West NSW	Outcome 2 : Threatened Species	Swainsona recta (Small Purple-pea, Mountain Swainson-pea, Small Purple Pea) [Endangered]	60 months	
	Greater Sydney	Greater Sydney Local Land Services	Protecting the values of the Greater Blue Mountains World Heritage Area through management of pest species	Outcome 3 : World Heritage Properties	The Greater Blue Mountains Area	60 months	Up to \$7.066 million
			Protection and enhancement of native vegetation, biodiversity, and soil condition in Greater Sydney	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Biodiversity and Vegetation On-Farms	48 months	
			Providing services to improve the trajectory of the Priority Threatened Species Grevillea caleyi	Outcome 2 : Threatened Species	Grevillea caleyi (Caley's Grevillea) [Endangered]	60 months	
			Restoration of important habitat for the Swift Parrot and Regent Honeyeater in the Greater Sydney Region	Outcome 2 : Threatened Species	Lathamus discolor (Swift Parrot) [Critically Endangered]	48 months	
Assisting farmers in the Greater Sydney Region to adapt to changes in climate and market demands			Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	36 months		
Maintaining the ecological character of the Towra Point Nature Reserve Ramsar site			Outcome 1 : Ramsar Wetlands	Towra Point Nature Reserve	60 months		

New South Wales	Hunter	Hunter Local Land Services	Bringing back the Regent honeyeater, a flagship species for our forests, farms, rivers and woodland birds	Outcome 2 : Threatened Species	Anthochaera phrygia (Regent Honeyeater) [Critically Endangered]	60 months	Up to \$9.815 million
			Protecting the wonders of the Myall Lakes Wetlands through catchment based partnerships	Outcome 1 : Ramsar Wetlands	Myall Lakes	12 months	
			Understanding the Australasian Bittern to improve and protect important habitats for their survival	Outcome 2 : Threatened Species	Botaurus poiciloptilus (Australasian Bittern) [Endangered]	48 months	
			Improving saltmarsh habitat and reducing threats to the Eastern Curlew	Outcome 2 : Threatened Species	Numenius madagascariensis (Eastern Curlew, Far Eastern Curlew) [Critically Endangered]	48 months	
			Climate ready aquaculture	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	
			In good hands: Landcare and farmers restoring Box Gum and Grey Box Grassy Woodlands	Outcome 4 : Threatened Ecological Communities (EPBC Act)	White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland	60 months	
	Murray	Local Land Services - Murray Region	Enhancement of NSW Central Murray Forests Ramsar Site	Outcome 1 : Ramsar Wetlands	NSW Central Murray State Forests	60 months	Up to \$8.075 million
			Bringing the Plains-wanderer back from the brink	Outcome 2 : Threatened Species	Pedionomus torquatus (Plains-wanderer) [Critically Endangered]	60 months	
			Building soil carbon in irrigated systems in the Murray Region	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Carbon	48 months	
			Adapting to market demands by piloting provenance and sustainability credentials in the Australian rice industry and beyond	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	
	North Coast	Local Land Services – North Coast	Improving the trajectory of the northern population of the Eastern Bristlebird in north-eastern New South Wales	Outcome 2 : Threatened Species	Dasyornis brachypterus (Eastern Bristlebird) [Endangered]	60 months	Up to \$9.272 million
			Protection of Gondwana Rainforests of Australia outstanding universal World Heritage values by mitigating Bell Miner Associated Dieback (BMAD)	Outcome 3 : World Heritage Properties	Gondwana Rainforests of Australia	60 months	
			Protection of the Lord Howe Island Group's outstanding universal World Heritage values and the Little Mountain Palm	Outcome 3 : World Heritage Properties	Lord Howe Island Group	60 months	
			Addressing vegetation, erosion and soil health decline on and around the highly productive alluvial floodplains of the Upper Richmond River catchment	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	60 months	
	North West NSW	Local Land Services North West	Protecting woodland bird habitat for Regent Honeyeaters	Outcome 2 : Threatened Species	Anthochaera phrygia (Regent Honeyeater) [Critically Endangered]	60 months	Up to \$5.689 million
			Improving condition and connectivity of TECs across the North West NSW slopes and plains	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Brigalow (Acacia harpophylla dominant and co-dominant)	60 months	
			Collaboration to build character of Ramsar wetlands	Outcome 1 : Ramsar Wetlands	Gwydir Wetlands: Gingham And Lower Gwydir (Big Leather) Watercourses	48 months	
			Resilient regional agriculture	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	
	Northern Tablelands	Local Land Services - Northern Tablelands	Turning the tide for threatened species – Regent Honeyeater	Outcome 2 : Threatened Species	Anthochaera phrygia (Regent Honeyeater) [Critically Endangered]	60 months	Up to \$8.646 million
			Northern Tablelands Gondwana Shield Project	Outcome 3 : World Heritage Properties	Gondwana Rainforests of Australia	48 months	
			Protecting Little Llangothlin Lagoon (Ramsar Site) for future generations	Outcome 1 : Ramsar Wetlands	Little Llangothlin Nature Reserve	60 months	
Managing grazing land in the Northern Tablelands for profitable, productive and sustainable farms			Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Carbon	48 months		
Building resilient grazing systems to adapt to changes in climate and meet market demands			Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months		
Conserving Upland Wetlands of the Northern Tablelands			Outcome 4 : Threatened Ecological Communities (EPBC Act)	Upland Wetlands of the New England Tablelands (New England Tableland Bioregion) and the Monaro Plateau (South Eastern Highlands Bioregion)	48 months		

Northern Territory	Riverina	Riverina Local Land Services	Boosting the Bunyip Bird Yield	Outcome 2 : Threatened Species	Botaurus poiciloptilus (Australasian Bittern) [Endangered]	48 months	Up to \$10.013 million	
			Reviving Riverina's Malleefowl	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	60 months		
			Bringing the Plains-wanderer back from the brink	Outcome 2 : Threatened Species	Pedionomus torquatus (Plains-wanderer) [Critically Endangered]	60 months		
			Farming Smarter - a soils project for the next generation	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	60 months		
	South East (NSW)	Local Land Services - South East	Securing the future of the Critically Endangered Fitzroy Falls Spiny Crayfish	Outcome 2 : Threatened Species	Euastacus dharawalus	60 months	Up to \$7.587 million	
			Button wrinklewort	Outcome 2 : Threatened Species	Rutidosia leptorrhynchoides (Button wrinklewort)	8 months		
			Mongarlowe Mallee	Outcome 2 : Threatened Species	Eucalyptus recurva (Mongarlowe Mallee)	56 months		
			Defending Blue Lake Ramsar Site (from Mouse Ear Hawkweed and other threats)	Outcome 1 : Ramsar Wetlands	Blue Lake	48 months		
			Reaching for recovery for the Endangered Macquarie Perch in South East NSW	Outcome 2 : Threatened Species	Macquaria australasica	60 months		
			Better land management practices – focus on soil acidity	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	60 months		
			Supporting local land stewards – incentivising better land manager environmental practices	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Carbon	48 months		
			Climate proofing subtropical and temperate coastal saltmarsh of South East NSW (Coastal Saltmarsh)	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Subtropical and Temperate Coastal Saltmarsh	48 months		
			Protecting the Greater Blue Mountains World Heritage Area	Outcome 3 : World Heritage Properties	The Greater Blue Mountains Area	48 months		
			Securing populations of the Magenta Lilly Pilly in southern NSW	Outcome 2 : Threatened Species	Magenta Lilly Pilly	24 months		
	Western	Western Local Land Services	Towards a Healthy Coolibah-Black Box TEC	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Coolibah - Black Box Woodlands of the Darling Riverine Plains and the Brigalow Belt South Bioregions	60 months	Up to \$7.941 million	
			TGP – Beyond the fence	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Wind Erosion	60 months		
			Sustaining Willandra – Championing the World Heritage Values	Outcome 3 : World Heritage Properties	Willandra Lakes Region	60 months		
	Northern Territory	Northern Territory	Territory Natural Resource Management Authority Incorporated	Protecting the extraordinary natural values of the Northern Territory's Top End	Outcome 3 : World Heritage Properties	Kakadu National Park	60 months	Up to \$14.458 million
				Protecting the Central Australian Cabbage Palm	Outcome 2 : Threatened Species	Central Australian cabbage palm	56 months	
				Protecting Threatened Species in the Top End	Outcome 2 : Threatened Species	Notomys aquilo (Northern Hopping-mouse, Woorrentinta) [Vulnerable]	8 months	
				Protecting the habitat of the Greater Bilby through the Arid Lands of Central Australia	Outcome 2 : Threatened Species	Macrotis lagotis (Greater Bilby) [Vulnerable]	48 months	
				Protecting the Central rock-rat and Arid Zone Threatened Species Recovery Forum	Outcome 2 : Threatened Species	Macrotis lagotis (Greater Bilby) [Vulnerable], Zyzomys pedunculatus (Central rock rat)	56 months	
				West Island feral cat eradication - dealing with the last feral cats	Outcome 2 : Threatened Species	Conilurus penicillatus (Brush-tailed Rabbit-rat, Brush-tailed Tree-rat, Pakooma)	20 months	
				Protection of native vegetation and biodiversity as good pastoral business	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Biodiversity and Vegetation On-Farms	60 months	
				Protecting the Northern Hopping Mouse	Outcome 2 : Threatened Species	Notomys aquilo (Northern Hopping-mouse, Woorrentinta)	30 months	
				Alligator Rivers Yellow Chat project	Outcome 2 : Threatened Species	Epthianura crocea tunneyi (Alligator Rivers Yellow Chat, Yellow Chat (Alligator Rivers))	30 months	
				White-throated Grasswren project	Outcome 2 : Threatened Species	Amytornis woodwardi (White-throated Greewren, Yirlinkirrkirr)	30 months	
Protecting the Brush-tailed Rabbit-rat project	Outcome 2 : Threatened Species	Conilurus penicillatus (Brush-tailed Rabbit-rat, Brush-tailed Tree-rat, Pakooma)	30 months					

			Supporting farmers and land managers to strengthen soil knowledge and capabilities	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil		15 months	
--	--	--	--	--	------	--	-----------	--

Queensland	Burdekin	NQ Dry Tropics Ltd	Conserving Brigalow Corridors in the Burdekin	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Brigalow (Acacia harpophylla dominant and co-dominant)	60 months	Up to \$6.236 million
			Protecting Beach Scrub Communities 2	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Semi-evergreen vine thickets of the Brigalow Belt (North and South) and Nandewar Bioregions	60 months	
			Building dynamic Burdekin grazing businesses	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	
	Burnett Mary	Burnett Mary Regional Group For Natural Resource Management Ltd	Strait Expectations – Restoring Great Sandy Ramsar 2018-2023	Outcome 1 : Ramsar Wetlands	Great Sandy Strait (Including Great Sandy Strait, Tin Can Bay And Tin Can Inlet)	60 months	Up to \$6.316 million
			Conserving the Outstanding Universal Values of World Heritage Properties: Protecting Saltmarsh and Marine Turtle Monitoring	Outcome 3 : World Heritage Properties	Great Barrier Reef	48 months	
			Resilient and Productive Farmers Across the Burnett Mary Region	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion, Soil Carbon	60 months	
	Cape York	NQ NRM Alliance Ltd	Biodiversity Bright Spots Rainforest Resilience: Caring for Cassowary and Littoral Rainforest and Coastal Vine Thicket (Ant Plant) country in Cape York	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Littoral Rainforest and Coastal Vine Thickets of Eastern Australia	60 months	Up to \$5.380 million
			Biodiversity Bright Spots Woodlands: Mobilising Threatened Species Recovery in Golden Shouldered Parrot Habitat Cape York	Outcome 2 : Threatened Species	Psephotus chrysopterygius (Golden-shouldered Parrot, Alwal) [Endangered]	60 months	
			Healthy Farming Futures: Establishing precision agriculture and land condition monitoring in Cape York (Cape York portion)	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion, Soil Carbon, Monitoring and Reporting Progress of Services Towards Outcomes	60 months	
	Condamine	Southern Queensland NRM Ltd	Securing the Future of Natural Grasslands on the Darling Downs	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil carbon and native vegetation and biodiversity on-farm	48 months	Up to \$4.002 million
			Future-proofing Darling Downs Agricultural Lands	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Natural grasslands on basalt and fine textured alluvial plains of northern NSW and southern Queensland	50 months	
	Desert Channels	Desert Channels Queensland Incorporated	Supporting Rangeland Agricultural Systems to Remain Profitable and Sustainable	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Wind Erosion, Soil Hillslope Erosion, Biodiversity and Vegetation On-Farms	60 months	Up to \$4.796 million
			Management and Restoration of Spring Ecosystems Dependent on Artesian Water	Outcome 4 : Threatened Ecological Communities (EPBC Act)	The community of native species dependent on natural discharge of groundwater from the Great Artesian Basin	60 months	
	Fitzroy	Fitzroy Basin Association Inc	Ramping up Ramsar recovery at Shoalwater and Corio Bay	Outcome 1 : Ramsar Wetlands	Shoalwater And Corio Bays Area (Shoalwater Bay Training Area, In Part - Corio Bay)	12 months	Up to \$6.050 million
			New Threatened Species Project: Nest protection for white-throated snapping turtle funding	Outcome 2 : Threatened Species	Eiseya albagula (White-throated snapping turtle) [Critically Endangered]	8 months	
			Enhancing Condition and Extent of Threatened Ecological Communities in the Fitzroy	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Semi-evergreen vine thickets of the Brigalow Belt (North and South) and Nandewar Bioregions	48 months	
			Creating Resilient, Profitable and Sustainable Agricultural Businesses in the Fitzroy	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion, Soil Carbon, Biodiversity and Vegetation On-Farms	60 months	
	Mackay Whitsunday	Reef Catchments (Mackay Whitsunday Isaac) Limited	Up-skilling farmers to adapt to changes in climate and market demands to secure the future of sustainable food production in the Mackay Whitsunday Isaac region	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	12 months	Up to \$3.717 million
			Management of the Great Barrier Reef World Heritage Area (Islands) within the Mackay Whitsunday Isaac management unit	Outcome 3 : World Heritage Properties	Great Barrier Reef	60 months	
			Holistic Farm Management in Mackay Whitsunday Isaac to Improve Soils, Vegetation and Biodiversity	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion, Soil Acidification, Soil Carbon, Biodiversity and Vegetation On-Farms	48 months	
	Maranoa Balonne and Border Rivers	Southern Queensland NRM Ltd	Securing the Future of Brigalow Remnants in the Queensland Murray-Darling	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Brigalow (Acacia harpophylla dominant and co-dominant)	48 months	Up to \$4.531 million
Future-proofing Murray-Darling Agricultural Lands			Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil carbon and native vegetation and biodiversity on-farm	50 months		
Northern Gulf	NQ NRM Alliance Ltd	Biodiversity Bright Spots in the Northern Gulf for the Golden Shouldered Parrot	Outcome 2 : Threatened Species	Psephotus chrysopterygius (Golden-shouldered Parrot, Alwal) [Endangered]	60 months	Up to \$4.566 million	
		Healthy Farming Futures - Sound foundations for the Northern Gulf	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion	60 months		
South East Queensland	Healthy Land and Water Ltd	Mountains to Mangroves: coordinated action to deliver national environment outcomes across South East Queensland	Outcome 1 : Ramsar Wetlands	Moreton Bay	60 months	Up to \$8.890 million	
		Ormeau bottle tree project	Outcome 2 : Threatened Species	Brachychiton Sp. Ormeau (Ormeau bottle tree) [Critically Endangered]	8 months		
		Increasing Adoption of Improved Land Management Practices Through Soil and Vegetation Services – SEQ	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion, Soil Carbon, Biodiversity and Vegetation On-Farms, Soil Acidification	60 months		
Southern Gulf	Southern Gulf NRM Ltd	Profitable producers creating healthy landscapes across the Southern Gulf	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Biodiversity and Vegetation On-Farms	60 months	Up to \$4.403 million	

South Australia*			Biodiversity Bright Spots - Carpentarian Grasswren in Buckley River IBA	Outcome 2 : Threatened Species	Non-Threatened Species Strategy Species	60 months	Up to \$4.463 million
	South West	Southern Queensland NRM Ltd	Collaborative Landscape Management to Protect the Currawinya Ramsar Wetlands	Outcome 1 : Ramsar Wetlands	Currawinya Lakes (Currawinya National Park)	48 months	Up to \$4.803 million
			Future-proofing South West Queensland Grazing Lands	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Wind erosion	50 months	
	Wet Tropics	NQ NRM Alliance Ltd	Biodiversity Bright Spots: Building Rainforest Resilience in the Wet Tropics	Outcome 2 : Threatened Species	Casuarium casuarium johnsonii (Southern Cassowary, Australian Cassowary, Double-wattled Cassowary) [Endangered]	48 months	Up to \$7.112 million
			Biodiversity Bright Spots: Tackling Woodland Threats in the Wet Tropics	Outcome 2 : Threatened Species	Petaurus gracilis (Mahogany Glider) [Endangered]	60 months	
			Supporting Threatened Species – Northern Bettong	Outcome 2 : Threatened Species	Northern Bettong recovery	24 months	
			Healthy Farming Futures: Wet Tropics Farmers Driving a Soil Health Culture	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification, Soil Hillslope Erosion, Soil Carbon	60 months	
	Adelaide and Mount Lofty Ranges	Hills and Fleurieu Landscape Board	Back from the Brink - Reducing immediate extinction risks and improving the long-term viability for Matters of National Environmental Significance in the Adelaide and Mount Lofty Ranges Management Unit	Outcome 2 : Threatened Species	Botaurus poiciloptilus (Australasian Bittern) [Endangered]	60 months	Up to \$6.760 million
			Healthy soils, healthy landscapes	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	60 months	
			Threatened Orchids Recovery Project	Outcome 2 : Threatened Species	Prasophyllum murfettii (Fleurieu Leek Orchid)	30 months	
	Alinytjara Wilurara	Alinytjara Wilurara Landscape Board	Improving vegetation cover for soil erosion and biodiversity outcomes in APY Pastoral Areas, South Australia	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Wind Erosion	12 months	Up to \$8.383 million
			Undertaking management interventions to maintain the Hooded Plover population along the remote Yalata coastline, South Australia	Outcome 2 : Threatened Species	Thinornis rubricollis rubricollis (Hooded Plover (eastern)) [Vulnerable]	12 months	
			Nganamara (malleefowl) adaptive management in the Great Victorian Desert, South Australia	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	60 months	
Sustainable pastoral development in APY pastoral areas, South Australia			Outcome 5 : Improved Soil, Biodiversity and Vegetation	Biodiversity and Vegetation On-Farms	48 months		
Translocation and population management of Warru (Black-footed Rock-wallaby) into former habitats within the APY lands, South Australia			Outcome 2 : Threatened Species	Petrogale lateralis MacDonnell Ranges race (Warru, Black-footed Rock-wallaby (MacDonnell Ranges race)) [Vulnerable]	48 months		
Eyre Peninsula	Eyre Peninsula Landscape Board	Protect and regenerate endemic vegetation project	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Eyre Peninsula Blue Gum (Eucalyptus petiolaris) Woodland	12 months	Up to \$6.545 million	
		Regenerative agriculture project	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification, Soil Carbon, Soil Wind Erosion, Biodiversity and Vegetation On-Farms	60 months		
		Whibley's Wattle Recovery project	Outcome 2 : Threatened Species	Acacia whibleyana (Whibley's Wattle)	8 months		
		Saltmarsh Threat Abatement and Recovery	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Subtropical and Temperate Coastal Saltmarsh	48 months		
Kangaroo Island	Kangaroo Island Landscape Board	Recovering the Kangaroo Island Narrow Leaved Mallee Woodland Threatened Ecological Community through local landscape action	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Kangaroo Island Narrow-leaved Mallee (Eucalyptus cneorifolia) Woodland	60 months	Up to \$7.138 million	
		Future proofing agriculture on Kangaroo Island	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	12 months		
		Creating a safe haven for the Kangaroo Island Dunnart and other priority threatened species by eradicating feral cats from the Dudley Peninsula	Outcome 2 : Threatened Species	Sminthopsis aitkeni (Kangaroo Island Dunnart) [Endangered]	48 months		
		Building resilient agricultural systems on Kangaroo Island	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	48 months		
Northern and Yorke	Northern and Yorke Landscape Board	Marna Banggara Great Southern Ark: building a landscape-scale safe haven for Australia's most threatened species on southern Yorke Peninsula	Outcome 2 : Threatened Species	Bettongia penicillata (Brush-tailed Bettong, Woylie) [Endangered]	60 months	Up to \$6.790 million	
		Living Flinders: building community leadership in landscape management	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion, Soil Wind Erosion, Soil Carbon, Monitoring and Reporting Progress of Services Towards Outcomes	60 months		

Tasmania	Southern Australian Arid Lands	South Australian Arid Lands Landscape Board	Bounceback and Beyond - landscape scale protection for threatened semi-arid species and their habitat	Outcome 2 : Threatened Species	Petrogale xanthopus (Yellow-footed rock wallaby)	60 months	Up to \$10.194 million
			Building Pastoral Sustainability through adaptation, diversification and innovation.	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	12 months	
			Landscape Legacies - Leadership in soil conservation practice across the pastoral zone of South Australia	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Wind Erosion, Biodiversity and Vegetation On-Farms, Soil Hillslope Erosion	12 months	
			Coongie Wetland Wonders - maintaining the values and improving the ecological function of the Coongie Lakes Ramsar Wetlands	Outcome 1 : Ramsar Wetlands	Coongie Lakes	60 months	
			Grazing Best Management Practice - industry-led performance benchmarking for improved sustainability and profitability in the South Australian pastoral zone	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	48 months	
	South Australian Murray-Darling Basin	Murray Lands and Riverland Landscape Board	Improving habitat viability and other recovery actions for EPBC listed Mallee woodland birds including Malleefowl, Red-lored Whistler and Black-eared Miner	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	56 months	Up to \$11.022 million
			Collaboration to restore the Iron-grass Natural Temperate Grassland of South Australia	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Iron-grass Natural Temperate Grassland of South Australia	60 months	
			Restoring the ecological character of the Ramsar wetlands of the SA Murray-Darling Basin	Outcome 1 : Ramsar Wetlands	Riverland	60 months	
			Building skills in farm soils and vegetation for improved resource sustainability and productive capacity	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	60 months	
	South East (SA)	Limestone Coast Landscape Board	Communities helping Cockies: Improving the trajectory of the nationally endangered South-eastern Red-tailed Black-Cockatoo (SERTBC)	Outcome 2 : Threatened Species	Calyptrorhynchus banksii graptogyne (Red-tailed Black-Cockatoo (south-eastern)) [Endangered]	60 months	Up to \$9.536 million
			South East agricultural industries adapting to variable climates and markets	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	
			Enhancing the Coorong and managing Ramsar values along the Limestone Coast	Outcome 1 : Ramsar Wetlands	The Coorong, And Lakes Alexandrina And Albert Wetland	60 months	
	North NRM Region	Northern Tasmanian Natural Resource Management Association Inc.	Safeguarding northern Tasmania as a refuge for Eastern Barred Bandicoot and other threatened species and communities	Outcome 2 : Threatened Species	Perameles gunnii gunnii (Eastern Barred Bandicoot (Tasmania)) [Vulnerable]	60 months	Up to \$8.296 million
			Reducing threats to the Floodplain Lower Ringarooma River Ramsar site	Outcome 1 : Ramsar Wetlands	Flood Plain Lower Ringarooma River	48 months	
			Partnerships for Giant Freshwater Lobster recovery in north-eastern Tasmania	Outcome 2 : Threatened Species	Astacopsis gouldi	60 months	
Enhancing on-farm soil, vegetation and biodiversity in Northern Tasmania			Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion	60 months		
Defending the 'hood': Reducing threats to Hooded Plover breeding success in northern Tasmania			Outcome 2 : Threatened Species	Thinornis rubricollis rubricollis (Hooded Plover (eastern)) [Vulnerable]	60 months		
Saving Shy Susan			Outcome 2 : Threatened Species	Tetratheca gunnii (Shy Pinkbells, Shy Susan)	18 Months		
Soil Extension Program			Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil erosion, soil acidification, soil carbon and soil structure	16 months		
North West NRM Region	Cradle Coast Authority	Protecting our Productive Soils	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil acidification	48 months	Up to \$5.148 million	
		Creating a Hooded Plover Stronghold on Three Hummock Island	Outcome 2 : Threatened Species	Hooded Plover (Thinornis rubricollis)	48 months		
		Giant Freshwater Crayfish Recovery	Outcome 2 : Threatened Species	Tasmanian giant freshwater crayfish (Astacopsis gouldi)	48 months		
		Coastal Saltmarsh Recovery in Robbins Passage and Surrounds	Outcome 4 : Threatened Ecological Communities (EPBC Act)	EPBC-listed Coastal Saltmarsh Threatened Ecological Community in the Robbins Passage - Boullanger Bay	41 months		
		Defining and mapping habitat requirements to support the survival of King Island scrubtit and King Island brown thornbill	Outcome 2 : Threatened Species	King Island scrubtit (Acanthornis magna subsp. greeniana)	18 Months		
South NRM Region	Southern Regional Natural Resource Management Association	Protecting the Breeding Population of Swift Parrots	Outcome 2 : Threatened Species	Swift Parrot (Lathamus discolor)	48 months	Up to \$6.771 million	
		Pasture Information Network - Agri-best practice for dryland graziers in the Derwent Catchment	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification and hillslope erosion	48 months		
		Protecting some of Australia's most threatened flora and communities: Morrisby's gum, Southport heath, and black or Brooker's gum forest and woodland	Outcome 2 : Threatened Species	Morrisby's gum (Eucalyptus morrisbyi), Southport heath (Epacris stuartii) and black or Brooker's gum forest and woodland	36 months		
		Improved ecological character of Moulting Lagoon and Apsley Marshes Ramsar Sites	Outcome 1 : Ramsar Wetlands	Moulting Lagoon and Apsley Marshes	46 months		

			Priority investigations to support Orange-bellied Parrot Recovery	Outcome 2 : Threatened Species	Neophema chrysogaster (Orange-bellied Parrot) [Critically Endangered]	18 Months	
--	--	--	---	--------------------------------	---	-----------	--

Corangamite	Corangamite Catchment Management Authority	Improving On-Farm Soil, Vegetation and Biodiversity for larger agricultural enterprises in the Corangamite Management Unit	Outcome 5 : improved Soil, Biodiversity and Vegetation	Soil Acidification, Biodiversity and Vegetation On-Farms	60 months	Up to \$8.619 million
		Protecting the Victorian Volcanic Plains	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Grassy Eucalypt Woodland of the Victorian Volcanic Plain	48 months	
		Protecting Priority Threatened Species of the Corangamite Coast	Outcome 2 : Threatened Species	Neophema chrysogaster (Orange-bellied Parrot) [Critically Endangered]	60 months	
East Gippsland	East Gippsland Catchment Management Authority	Cross Regional Victorian Alpine Peatland Protection Project – East Gippsland	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Alpine Sphagnum Bogs and Associated Fens	60 months	Up to \$4.980 million
		Priority actions for the Gippsland Lakes Ramsar site	Outcome 1 : Ramsar Wetlands	Gippsland Lakes	60 months	
		TopSoils2: Improving agricultural land in East Gippsland	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Carbon	60 months	
Glenelg Hopkins	Glenelg Hopkins Catchment Management Authority	Victorian Volcanic Plains Recovery Project	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Natural Temperate Grassland of the Victorian Volcanic Plain	60 months	Up to \$14.559 million
		Protecting the Hooded plover	Outcome 2 : Threatened Species	Thinornis rubricollis rubricollis (Hooded plover)	56 months	
		Coastal Connections	Outcome 2 : Threatened Species	Botaurus poiciloptilus (Australasian Bittern) [Endangered]	60 months	
		Red-tails of the Glenelg Plain	Outcome 2 : Threatened Species	Calyptorhynchus banksii graptogyne (Red-tailed Black-Cockatoo (south-eastern)) [Endangered]	48 months	
		Sustainable Agriculture: Soils4Farms	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	60 months	
Goulburn Broken	Goulburn Broken Catchment Management Authority	Linking landscapes and communities	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Grey Box (Eucalyptus microcarpa) Grassy Woodlands and Derived Native Grasslands of South-eastern Australia	60 months	Up to \$13.686 million
		Barmah Country: working with Traditional Owners to strengthen resilience of the Barmah Ramsar site	Outcome 1 : Ramsar Wetlands	Barmah Forest	48 months	
		Mending mountains for the Pygmy-possum	Outcome 2 : Threatened Species	Burrarnys parvus (Mountain Pygmy-possum) [Endangered]	60 months	
		From the ground up: integrating agricultural and environmental practices to improve farm production and biodiversity	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion, Soil Acidification, Soil Carbon, Biodiversity and Vegetation On-Farms	60 months	
		Buxton Silver Gum Revival Project	Outcome 2 : Threatened Species	Eucalyptus crenulata (Silver Gum, Boxton Gum)	30 months	
Mallee	Mallee Catchment Management Authority	Mallee Threatened Ecological Communities Services	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Buloke Woodlands of the Riverina and Murray-Darling Depression Bioregions	60 months	Up to \$11.289 million
		Mallee Ramsar Services	Outcome 1 : Ramsar Wetlands	Hattah-Kulkyne Lakes	48 months	
		Mallee Threatened Species Services	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	60 months	
		Mallee Soil, Biodiversity and Vegetation On-Farm Services	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Wind Erosion	60 months	
North Central	North Central Catchment Management Authority	Plains for Wanderers	Outcome 2 : Threatened Species	Pedionomus torquatus (Plains-wanderer) [Critically Endangered]	60 months	Up to \$9.769 million
		Bringing Back the Bittern	Outcome 2 : Threatened Species	Botaurus poiciloptilus (Australasian Bittern) [Endangered]	60 months	
		Regenerative Agriculture in North Central Victoria	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Carbon	60 months	
North East	North East Catchment Management Authority	Bush for birds – landscape-scale habitat restoration for the Regent Honeyeater and Swift Parrot	Outcome 2 : Threatened Species	Anthochaera phrygia (Regent Honeyeater) [Critically Endangered]	60 months	Up to \$11.359 million
		Cross-regional Victorian Alpine Peatland Protection Project – North East	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Alpine Sphagnum Bogs and Associated Fens	60 months	
		Mountain Pygmy Possum recovery in the Victorian Alps	Outcome 2 : Threatened Species	Burrarnys parvus (Mountain Pygmy-possum) [Endangered]	60 months	
		Securing north east soils through knowledge exchange	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	48 months	
		Embedding climate adaptation in agriculture	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	

Western Australia	Port Phillip and Western Port	Port Phillip and Westernport Catchment Management Authority	The Great He Ho Escape – Helping threatened Helmeted Honeyeater and Leadbeaters Possum populations expand their range and increase their resilience	Outcome 2 : Threatened Species	Lichenostomus melanops cassidix (Helmeted Honeyeater, Yellow-tufted Honeyeater (Helmeted)) [Critically Endangered]	12 months	Up to \$7.778
			Two Great Ramsar Wetlands – Protection and enhancement of Ramsar-listed wetlands and priority coasts in the Port Phillip and Western Port region	Outcome 1 : Ramsar Wetlands	Western Port	60 months	
			French Island Feral Cat Control – Controlling cats to save threatened species in the Western Port Ramsar wetland	Outcome 2 : Threatened Species	Perameles gunnii Victorian subspecies (Eastern Barred Bandicoot (Mainland)) [Endangered]	48 months	
			Smart Farming for Western Port – Increasing awareness and adoption of improved land management practices on farms in the catchment of Western Port	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	60 months	
	West Gippsland	West Gippsland Catchment Management Authority	Cross Regional Victorian Alpine Peatland Protection Project – West Gippsland	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Alpine Sphagnum Bogs and Associated Fens	60 months	Up to \$8.305 million
			Corner Inlet connections	Outcome 1 : Ramsar Wetlands	Corner Inlet	60 months	
			Sustainable agriculture - review and renewal	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Hillslope Erosion, Soil Acidification. Soil Carbon, Biodiversity and Vegetation on Farms	60 months	
	Wimmera	Wimmera Catchment Management Authority	Building carbon and capacity	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Carbon	60 months	Up to \$6.444 million
			Food for the Future - Improving the habitat of the South-eastern Red-tailed Black-cockatoo in the Wimmera	Outcome 2 : Threatened Species	Calyptrorhynchus banksii graptogyne (Red-tailed Black-Cockatoo (south-eastern)) [Endangered]	60 months	
			Protecting our Malleefowl	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	48 months	
	Avon River Basin	Wheatbelt Natural Resource Management Incorporated	WA Wheatbelt woodlands: where the wild things are	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Eucalypt Woodlands of the Western Australian Wheatbelt	60 months	Up to \$11.116 million
			Matchstick Banksia project	Outcome 2 : Threatened Species	Banksia cuneate (Matchstick Banksia)	8 months	
			Malleefowl: pick of the litter	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	48 months	
			Optimising mixed farming fodder systems	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Wind Erosion, Soil Carbon	60 months	
	Northern Agricultural Region	Northern Agricultural Catchments Council Incorporated	Gnow or Never: Supporting Communities to save Malleefowl	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	60 months	Up to \$9.616 million
			Scaly-leaved featherflower project	Outcome 2 : Threatened Species	Verticordia spicata subsp. Squamosa (Scaly-leaved featherflower)	8 months	
Securing the future of regionally extinct mammals in the NAR			Outcome 2 : Threatened Species	Dasyurus geoffroii (Chuditch, Western Quoll) [Vulnerable]	48 months		
Growing great ground			Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil wind erosion, biodiversity and vegetation	48 months		
Supporting smarter farms: improving land use management in the NAR			Outcome 5 : Improved Soil, Biodiversity and Vegetation	Soil Acidification	60 months		
Setting seed: Rescuing Foote's Grevillea			Outcome 2 : Threatened Species	Grevillea calliantha (Foote's Grevillea, Cataby Grevillea, Black Magic Grevillea)	18 months		
Peel-Harvey Region	Peel-Harvey Catchment Council Inc	Wetlands and people – a community restoring the ecological character of the Peel-Yalgorup Ramsar 482 Wetlands	Outcome 1 : Ramsar Wetlands	Peel-Yalgorup System	60 months	Up to \$12.062 million	
		A world for woodlands - reducing threats to Banksia Threatened Ecological Communities through land stewardship	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Banksia Woodlands of the Swan Coastal Plain ecological community	60 months		
		Greening the Peel-Harvey landscape for farming, fodder and fauna	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Biodiversity and Vegetation On-Farms	60 months		
		Numbat neighbourhood – supporting people to protect the vulnerable Numbat wioo (Numbat, Myrmecobius fasciatus) in the wild	Outcome 2 : Threatened Species	Myrmecobius fasciatus (Numbat) [Vulnerable]	60 months		
Rangeland Regions	Rangelands NRM Co-ordinating Group (Inc.)	Rangelands Threatened Species Forum	Outcome 2 : Threatened Species	Pezoporus occidentalis (Night parrot)	8 months	Up to \$12.020 million	
		Communities protecting the values of West Kimberley Ramsar sites	Outcome 1 : Ramsar Wetlands	Eighty-Mile Beach	60 months		
		Reducing risks to Malleefowl habitat across the Western Australian Southern Rangelands	Outcome 2 : Threatened Species	Leipoa ocellata (Malleefowl) [Vulnerable]	60 months		
		Reducing risk to Bilby habitat across the WA Northern Rangelands	Outcome 2 : Threatened Species	Macrotis lagotis (Greater Bilby) [Vulnerable]	60 months		

			Creating a community of practice to manage for climate change across the WA rangelands	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months	
			Protecting Night Parrots in Western Australia	Outcome 2 : Threatened Species	Night Parrots	36 months	
			Finding common ground to protect Ningaloo Coast and Shark Bay World Heritage Areas	Outcome 3 : World Heritage Properties	The Ningaloo Coast	60 months	
South Coast Region	South Coast Natural Resource Management Incorporated	Protecting Ramsar values through rehabilitation, restoration and reducing threats to the ecological character of the Lake Warden and Lake Gore Ramsar wetlands	Outcome 1 : Ramsar Wetlands	Lake Warden System	60 months	Up to \$14.311 million	
		Exploring new opportunities for improving the status of 20/20 priority listed threatened species in the South Coast Region Management Unit - bringing scientists, Indigenous people and NRM community together to protect threatened species	Outcome 2 : Threatened Species	Pezoporus flaviventris (Western Ground Parrot, Kyloring) [Critically Endangered]	60 months		
		Protecting coastal corridors and improving the condition of Proteaceae dominated Kwongkan Shrubland and Temperate Coastal Saltmarsh Threatened Ecological Communities (TEC) in the South Coast Region of Western Australia	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Proteaceae Dominated Kwongkan Shrublands of the Southeast Coastal Floristic Province of Western Australia	60 months		
		Climate action: supporting the region to adapt, innovate and meet food market demands for sustainable food production	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months		
South West Region	South West Catchments Council Incorporated	Creating safe havens for the Western Ringtail Possum and priority nationally listed threatened species in the South West	Outcome 2 : Threatened Species	Pseudocheirus occidentalis (Western Ringtail Possum, Ngwayir, Womp, Woder, Ngoor, Ngoolangit) [Vulnerable]	60 months	Up to \$11.917 million	
		Managing vegetation on farm targeting pollinators and farm resilience	Outcome 5 : Improved Soil, Biodiversity and Vegetation	Biodiversity and Vegetation On-Farms	60 months		
		South West wetlands of international significance	Outcome 1 : Ramsar Wetlands	Toolibin Lake (Also Known As Lake Toolibin)	60 months		
Swan Region	Perth NRM	Glossy-leafed hammer-orchid project	Outcome 2 : Threatened Species	Drakaea elastic (Glossy-leafed hammer-orchid)	8 months	Up to \$7.567 million	
		Living Landscapes: Improving the condition of Threatened Ecological Communities in the Swan NRM region	Outcome 4 : Threatened Ecological Communities (EPBC Act)	Banksia Woodlands of the Swan Coastal Plain ecological community	60 months		
		Living Landscapes: Back from the Brink Project	Outcome 2 : Threatened Species	Petrogale lateralis lateralis (Black-flanked Rock-wallaby, Moororong, Black-footed Rock Wallaby) [Endangered]	60 months		
		Food Future agenda: sustainability indicator platform	Outcome 6 : Supporting Agriculture Systems to Adapt to Change	Supporting Agriculture Systems to Adapt to Change	60 months
