

Expression of interest: Your suggestions for potential water use options

1. About you and the site you have chosen

Name:

Contact details:

Name of organisation or group (if applicable):

Site name(s) and location:

Please provide the information requested below, to the best of your knowledge.

1.1 Site description

Please provide a brief description of the site, in particular:

- *Is it a wetland, river or floodplain?*
- *Is it permanently or intermittently inundated?*
- *What is the main type of vegetation?*

(Write response here)

1.2 Need for environmental watering

Please provide a brief description of the need for environmental water, taking into account the following questions:

- *Why is the site ecologically important? (For example, is it regionally or nationally significant or rare? Does it provide habitat for threatened species? Is it an important breeding site?)*
- *What is the current condition of the site, including its plants and animals?*
- *When did the site last receive water?*
- *What are the likely environmental outcomes if water is provided?*
- *What will be the consequences if the site does not receive environmental water?*

(Write response here)

1.3 The watering action(s)

Please provide your best estimate of:

- *Whether environmental water would be needed on a one-off basis or as part of a regular, longer-term arrangement? (If you are proposing a longer-term arrangement, please provide relevant details)*
- *How much water might be needed?*
- *In what months would the water be most effective?*
- *What should be the duration of the watering action(s)?*
- *How might the water be delivered?*

(Write response here)

1.4 Potential co-contributions

- *Will you or others be able to make a contribution to ensure the success of this action?*
- *If yes, what contribution could you make? (Contributions might include providing additional environmental water, undertaking complementary conservation activities, or assisting with monitoring outcomes, for example).*
