You must list all species and the approximate number of each species that you expect to mark before this application will be considered. **Do NOT** put "all encountered" or similar.

What colour marking method do you propose to use ?

- Colour banding ()
- Plumage/Fur Dyeing ()
- Patagial Tagging ()
- Leg Flagging ()
- Other (specify) _____
- _____

What are your reasons for wishing to undertake this colour marking program (eg. to recognise individual birds/bats locally, to recognise birds/bats from a particular colony to study movements, etc) ?

Location(s) of colour marking study. If the site is already registered with the Banding Schemes; please provide the Location Code(s), if not, please register the Locode(s) you intend to use.

Locode _____ Location Checkcode _____

Locode _____ Location Checkcode _____

Locode _____ Location Checkcode _____

Who do you expect to provide the bulk of observations of the marked birds/bats?

Yourself or colleagues ()
Members of the public ()
Both the above groups ()

How do you intend to deal with sightings of birds marked in this study made by members of the public? (eg direct response, web site etc). Please see our attached policy on colour marking studies.

How long do you intend to continue the study? _____

How frequently will observations be made? _____

Are you colour blind? Yes () No ()

If so, which colours do you have difficulty discriminating?

Are there any reasons why a particular colour should be excluded from your colour marking schema? (eg the bird's leg colour or the colour the habitat favoured by the species)

FOR COLOUR BANDERS ONLY

Do you have a preference for a colour banding schema? If so please give details after considering the standard schemas available and the movement habits of the species involved. (see Bander's Manual chapter 9 and revised Schema List).

Signature of supervising bander _____ Date ___/___/___
