

PERMIT APPLICATION FORM

Other Activities in Uluru-Kata Tjuta National Park

Uluru-Kata Tjuta National Park is a Commonwealth reserve established under the *Environment Protection and Biodiversity Conservation Act 1999* (the EPBC Act) to manage the gardens for the benefit of all people, present and future. The Director of National Parks, also established under the EPBC Act, uses a permit system to help regulate some activities. Permits may be issued subject to conditions that help to identify, protect, conserve and manage biodiversity, heritage and other values of Commonwealth reserves. This is a system through which industry and the public can share in the responsibilities of managing and protecting the reserve. Permits enable the reserve's managers to:

- maximise the safety of visitors
- encourage responsible behaviour
- ensure that commercial and other users are accountable for their actions
- separate potentially conflicting activities
- manage impacts on high-use and sensitive areas
- monitor activities that could degrade biodiversity, heritage and other values
- collect data for planning and management.

The *Environment Protection and Biodiversity Conservation Regulations 2000* (the EPBC Regulations) prohibit some activities in Commonwealth reserves. Individuals and other commercial entities (e.g. companies and associations) wishing to conduct an activity otherwise prohibited by the EPBC Regulations in Uluru-Kata Tjuta National Park may be able to obtain a permit issued by the Director. The Director may issue a permit only if:

- the activity is consistent with the management plan in force for the reserve including that the activity:
 - promotes an understanding and appreciation of the park's natural and cultural heritage
 - is consistent with the aims of the zoning system of the park's management plan
 - is consistent with the conservation values and management principles of the park
 - any lease of indigenous people's land in the park
- the activity is not likely to:
 - endanger public safety
 - unduly damage the reserve
 - unduly interfere with the preservation or conservation of biodiversity or heritage in the reserve
 - unduly interfere with the protection of other features or facilities in the reserve
 - interfere with the privacy of other people in the reserve
- the activity benefits the public or persons using the park

In making a decision whether to issue a permit, the Director may take into account whether a person to whom the permit is to be issued has, in the last 10 years, been convicted of or is subjected to proceedings for an environmental offence.

Some activities need to satisfy additional requirements before the Director can issue a permit for them.

Please allow a minimum of 14 days for the permit application to be processed. 16. The permittee must ensure that the permittee's staff are appropriately trained and/or accredited for any activity they conduct in the park.
17. The permittee must ensure that appropriate risk management systems, strategies and procedures are in place to minimise foreseeable risks to the permittee's staff, authorised participants, other members of the public and the environment and heritage values of the park, and must produce evidence of such systems, strategies and procedures upon request by the Director.

Note: Suitable templates for risk management systems are available from Parks Australia. They represent the minimum acceptable standard for a risk management system. Permittees are encouraged to develop more detailed risk management systems.

18. The permittee is responsible for the safety, well being and behaviour of the permittee's staff and authorised participants, and must take all reasonably practicable steps to ensure that no person is exposed to risks to their health or safety whilst in the park.
