Parties

This Agreement is made between and binds the following parties:

1. **The Commonwealth of Australia** (the Commonwealth)
2. **The Minister for Water Security for and on behalf of the Crown in right of the State of South Australia acting through the Department of Water, Land and Biodiversity Conservation** (the State)

PREAMBLE

- A. On 3 July 2008 the Commonwealth and the Basin States (being the States of New South Wales, Queensland, South Australia and Victoria and the Australian Capital Territory) signed an Intergovernmental Agreement (IGA) on Murray-Darling Basin Reform. Alongside the *Water Act 2007*, the IGA progresses the objectives of the National Water Initiative (NWI) which are to increase the productivity and efficiency of Australia's water use, to service rural and urban communities and to ensure the health of river and groundwater systems. In doing so the IGA reaffirms the parties' commitment to the NWI.
- B. Part Four of the IGA provides for the parties to enter into this Agreement to give effect to the urgent need to undertake water reforms in the Murray-Darling Basin to deliver a sustainable cap on surface water and groundwater diversions across the Murray-Darling Basin to ensure the future of communities, industry and enhanced environmental outcomes.
- C. This Agreement provides for the State to undertake one or more Priority Projects that will substantially contribute to improved water use efficiency and enhance the sustainability of rural water use in the Murray-Darling Basin. The Agreement recognises the direct link between the need for the Basin States to undertake water reforms in the Murray-Darling Basin and the provision of Commonwealth funding for each Priority Project. The Commonwealth will provide this funding from its Sustainable Rural Water Use and Infrastructure program, which is a component of the Commonwealth's *Water for the Future* initiative.

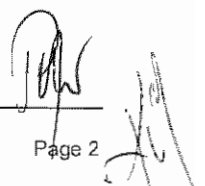

- D. In entering into this Agreement, the Commonwealth and the State recognise that they have a shared responsibility and mutual interest in improving outcomes in the Murray-Darling Basin.

PART ONE - OBJECTIVES OF THE AGREEMENT

1. Objectives (ref IGA 4.2, 4.9, and 4.10)

- 1.1.1. The parties agree to work together to ensure the sustainable use of Basin water resources, and to help Basin water users adapt to the expected impacts of climate change by:
- a. their ongoing implementation of the NWI and the State's achievement of the Reform Requirements in this Agreement;
 - b. their implementation of the *Water Act 2007*, including the Basin Plan adopted by the Commonwealth Minister under section 44 of the *Water Act 2007*; and
 - c. the Commonwealth funding, and the State carrying out, Priority Projects that have passed the Due Diligence process to the Commonwealth's satisfaction.
- 1.1.2. The parties' objectives for Priority Projects are:
- a. the implementation of water saving infrastructure projects;
 - b. the return of water to the environment and restoration of river health; and
 - c. adaptation to climate change in an environment of reduced water availability.
- 1.1.3. The Commonwealth's objectives for the Priority Projects are:
- a. the securing of a long-term sustainable future for irrigation communities, in the context of climate change and reduced water availability in the future;
 - b. the delivery of substantial and lasting returns of water to the environment to secure real improvements in river health;
 - c. value for money to the Commonwealth in the context of paragraphs a and b above; and
 - d. other objectives as set out in the Due Diligence Guidelines.
- 1.1.4. The State's objectives for the Priority Projects are:
- a. the securing of a long-term sustainable future for communities, in the context of climate change and reduced water availability in the future; and
 - b. the delivery of substantial and lasting returns of water to the environment to secure real improvements in river health.

PART TWO - PARTIES' RESPONSIBILITIES

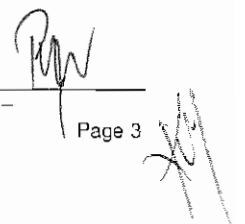

2. Parties' responsibilities under this Agreement (ref IGA 4.6.1 and 4.13.1)

2.1. Commonwealth responsibilities

- 2.1.1. The Commonwealth agrees to expeditiously meet its responsibilities under this Agreement, including:
- a. carrying out the Due Diligence assessment of a Proposed Project in accordance with the Due Diligence Guidelines in an efficient and timely manner in accordance with clause 5.1;
 - b. subject to clauses 6 and 17 and the relevant Project Schedule, promptly making a payment of Funds for a Priority Project once the State has met the Payment Preconditions for that Project; and
 - c. promptly making any Reimbursement Payment to the State that is required under clause 6.5.1 of this Agreement.
- 2.1.2. The Commonwealth agrees that Water Entitlements Transferred to the Commonwealth in respect of each Priority Project that has Agreed Water Savings under this Agreement will be managed by the CEWH.
- 2.1.3. The Commonwealth may, at its discretion, assist the State to implement certain Reform Actions and Reform Milestones and any such assistance will be set out in Schedule 1. Any such Commonwealth assistance does not, however, make the Commonwealth responsible in any way for the performance of any part of a Priority Project or the Reform Requirements.

2.2. State responsibilities

- 2.2.1. The State agrees to expeditiously meet its responsibilities under this Agreement including:
- a. performing each Priority Project in a timely and professional manner in accordance with the Project Schedule for that Priority Project, where the State is responsible, to arrange the Transfer of Water Entitlements to the Commonwealth in respect of each Priority Project that has Agreed Water Savings and, to the extent it applies to each Priority Project, the National Code of Practice for the Construction Industry;
 - b. negotiating in good faith with a view to agreeing further Reform Requirements;
 - c. achieving the Reform Requirements in a timely and professional manner in accordance with clause 4 and Schedule 1;
 - d. providing the Reports in accordance with clause 8, Schedule 4 and the Project Schedules; and

- e. providing the State Contributions and Other Contributions for each Priority Project in accordance with clause 6 and Item D.2 of the Project Schedules.

2.2.2. The State is responsible for the performance of all of its responsibilities specified in this Agreement notwithstanding that it may have subcontracted all or some of them. The State will be responsible to ensure appropriate contracts with subcontractors are in place where relevant and that its rights including termination under such contracts can be enforced.

2.2.3. The State is responsible for any costs it incurs in relation to:

- a. subject to clauses 2.1.3 and 6.5, the Reform Actions and Reform Milestones; and
- b. and where the State is responsible, to arrange for the Transfer of Water Entitlements to the Commonwealth for each Priority Project that has Agreed Water Savings, such costs to be borne by the State to exclude ongoing charges associated with any Water Entitlements that have been Transferred to the Commonwealth in accordance with this Agreement.

2.3. **Enforceability of the Agreement**

2.3.1. The parties do not intend any of the provisions of this Agreement to be legally enforceable other than any indemnity that is contained in a Project Schedule in accordance with clause 2.3.2.

2.3.2. In accordance with Schedule E of the IGA an indemnification will be granted to the Commonwealth against any environmental or other third party damage arising from a Priority Project.

PART THREE - ASSESSMENT OF THE PARTIES' PERFORMANCE OF THE AGREEMENT

3. Assessment of the parties (ref IGA 4.7)

3.1. COAG Reform Council responsible for assessment of the parties' performance

3.1.1. The COAG Reform Council is responsible for assessing the parties' performance of this Agreement as described in Schedule 3.

3.2. Assessment of Reform Requirements

3.2.1. The COAG Reform Council may delegate its assessment of the State's performance and achievement of its Reform Requirements to the National Water Commission (NWC).

- 3.2.2. The process for assessing and, where necessary, re-assessing the State's completion of a Reform Milestone, and achievement of a Reform Action, is described in Schedule 3.

PART FOUR - REFORM REQUIREMENTS

4. Reform Requirements (ref IGA 4.8, 4.13.3, Part 5)

4.1. Water Reform Actions and Milestones

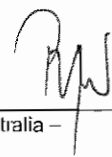

- 4.1.1. The Reform Actions specified in Schedule 1 are drawn from reforms identified in the NWI, IGA and COAG actions and focus on the improved management of Basin water resources.
- 4.1.2. The State agrees to complete the Reform Actions and Reform Milestones specified in Schedule 1, and those incorporated into Schedule 1 in accordance with clause 4.1.3, by the dates specified in, or agreed under, this Agreement.
- 4.1.3. The parties will negotiate in good faith for the purpose of agreeing further water reforms to be incorporated into Schedule 1 as follows:
- a. if a water reform is agreed at COAG and needs further detail in order for it to be included in Schedule 1 in the Reform Action and Reform Milestone format, the parties or representative, in accordance with 16.1.1 and 16.1.2 shall negotiate in good faith to agree, and incorporate into Schedule 1, new Reform Action(s) and/or Reform Milestone(s) to give effect to the COAG decisions in a timely manner;
 - b. other water reforms may also be agreed by the parties' respective Ministers with responsibility for water matters, and once the Ministers have agreed in writing the new Reform Action(s) and/or Reform Milestone(s) that give effect to each such reform, the parties will incorporate those Reform Action(s) and Reform Milestone(s) into Schedule 1 in a timely manner; and
 - c. Reform Requirements agreed under this clause 4.1.3 must be consistent with the IGA, NWI and COAG actions.

4.2. Reform Actions – third parties

- 4.2.1. The parties agree that Funds will not be withheld either fully or partially simply because the achievement of a Reform Action or a Reform Milestone has been delayed solely by the actions of another party to the IGA.

4.3. No Additional Net Costs

- 4.3.1. In accordance with Part 5 of the IGA, the parties agree to comply with No Additional Net Costs principles, process and methodology once they are agreed between the parties, for the purposes of this Agreement.

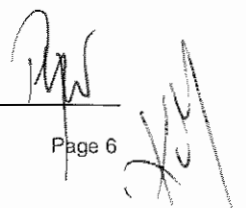

PART FIVE - PRIORITY PROJECTS

5. **Priority Projects (ref IGA 4.12, 4.13.1 (b))**

5.1. **Due Diligence process for Proposed Projects**

- 5.1.1. The Commonwealth is not required to provide any Funding to the State in respect of a Proposed Project until and unless:
- a. the Commonwealth is satisfied with the outcomes of the Due Diligence assessment of the Proposed Project; and
 - b. the parties have agreed, completed and signed a Project Schedule in accordance with clause 16.2, thereby incorporating the Proposed Project into this Agreement as a Priority Project.
- 5.1.2. In conducting its Due Diligence assessment of a Proposed Project, the Commonwealth:
- a. will examine information provided by the State about the Proposed Project and consider the social, economic, environmental, financial and technical aspects of the Proposed Project in accordance with the Due Diligence Guidelines;
 - b. may seek the advice of the Murray-Darling Basin Authority regarding the Proposed Project and, where appropriate, relevant State departments or agencies; and
 - c. will provide the State with an opportunity to comment in writing on the draft results of the Commonwealth's Due Diligence assessment of a Proposed Project prior to the Commonwealth finalising its Due Diligence assessment of that Proposed Project. The State agrees to provide its comments, if any, within 20 Business Days of receiving a draft report from the Commonwealth regarding the Due Diligence assessment of the Proposed Project. The Commonwealth will consider the State's comments prior to the Commonwealth finalising its Due Diligence determination.
- 5.1.3. The State agrees to provide the Commonwealth and its Personnel with full and timely access to information (including Confidential Information) about the Proposed Project (including, where the Proposed Project has water savings, the Water Entitlements that the State proposes to Transfer to the Commonwealth in relation to the Proposed Project) to enable the Commonwealth to undertake a rigorous Due Diligence assessment of the Proposed Project.
- 5.1.4. Each party agrees to bear its own costs arising from its participation in the Due Diligence assessment of a Proposed Project.

- 5.1.5. Should the Commonwealth, acting reasonably, consider that the Due Diligence assessment has not demonstrated that the Proposed Project is economically, environmentally, financially, socially or technically viable or feasible, the parties may enter into discussions about the possible reconfiguration or re-scoping of the Proposed Project. However, entry into any such discussions does not require:
- a. the Commonwealth to fund; or
 - b. the State to fund or perform,
- any reconfigured or other Proposed Project.

5.2. Transfer of Water Entitlements to the Commonwealth
Savings in a Proposed Project

- 5.2.1. The State will provide DEWHA with estimated water savings for each Proposed Project in the Due Diligence documentation. Where the State considers that there will be no water savings from a Proposed Project, this should be stated in the Due Diligence documentation.

Due Diligence

- 5.2.2. As part of the Due Diligence assessment for each Proposed Project, the Commonwealth will review the State's estimated water savings or verify the State's indication that there would be no water savings.

Agreed Savings

- 5.2.3. Following Due Diligence, the parties will specify Agreed Water Savings in the Project Schedule for each Proposed Project including:
- a. the amount and characteristics (as defined by the relevant Water Plan) of the Agreed Water Savings;
 - b. the Commonwealth's Proportion of the Agreed Water Savings, which must be at least 50% of the Agreed Water Savings from that Proposed Project;
 - c. the timing of the Transfer of the Commonwealth's Proportion of the Agreed Water Savings in the form of Water Entitlements;
 - d. the agreed payment(s) that is to be linked to the Transfer of the Commonwealth's proportion; and
 - e. whether a verification process will be undertaken to determine Actual Water Savings.
- 5.2.4. The State agrees to ensure that Water Entitlements forming the Commonwealth's Proportion of the Agreed Water Savings must:

- a. not be encumbered in any way, including by a mortgage, or any condition or restriction on the use of the Water Entitlements other than arising from the reasonable operation of the *Natural Resources Management Act 2004* (SA) and instruments under that Act;
- b. have the characteristics of water access entitlements specified under paragraphs 28-32 of the NWI;
- c. ensure that the Commonwealth will be able to use the water allocated under the acquired Water Entitlements on terms that are no less favourable than those provided to other holders of equivalent entitlements;
- d. be fully accounted for each year in accordance with paragraphs 80-89 of the NWI, including accounting for Water Entitlements and annual allocations; and
- e. provide water that can be managed by the CEWH to meet Commonwealth environmental watering objectives.

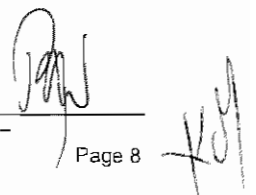

5.2.5. The State agrees to ensure that water allocated to Water Entitlements that the State has Transferred to the Commonwealth, for management by the CEWH, cannot be diverted for consumption within the State except by or at the direction of the CEWH for environmental watering purposes.

Entitlement Transfer

5.2.6. The State agrees to ensure the Transfer of the Commonwealth's Proportion of the Agreed Water Savings from that Priority Project in the form of Water Entitlements, as set out in the relevant Project Schedule.

5.2.7. Unless otherwise agreed, the Commonwealth will not be required to pay consumptive water charges on any Water Entitlements from unregulated rivers that the State arranges to Transfer to the Commonwealth. The Commonwealth will be required to pay for all other statutory charges applying to the Water Entitlements once they have been Transferred to the Commonwealth.

5.2.8. The State agrees to obtain any statutory or other approvals required to ensure that all Water Entitlements can be Transferred to the Commonwealth.

Handwritten signatures in black ink, including a large signature on the left and a smaller one on the right.

Actual Water Savings

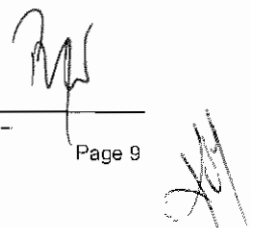

- 5.2.9. A Project Schedule for a Priority Project may include a verification process to verify the State's measurement of water actually saved by that Priority Project (Actual Water Savings). If a verification process is undertaken it will be conducted by an independent person. If the parties are not able to agree on an independent person within 60 Business Days, the Commonwealth may select an appropriately qualified person. The State agrees to give the agreed or nominated person full and timely access to its information (including Confidential Information) about a Priority Project as is necessary to enable the selected person to undertake the verification and assessment required by this clause 5.2.9.
- 5.2.10. In accordance with clause 5.2.9 where a verification process was agreed to be undertaken, and that verification process found that the amount of the Actual Water Savings for a Priority Project varied by more than 10% from the amount of the Agreed Water Savings for that Priority Project, the parties will negotiate in good faith to agree the sharing of the Actual Water Savings with a minimum starting point of 50% for each party. The exception to this provision is where the Actual Water Savings are less than the Agreed Water Savings due to a voluntary decision, act or omission of the State.

PART SIX - FUNDS

6. Financial Arrangements (ref IGA 4.5.5, 4.11, 4.13, 4.14 and Part 5)

6.1. Payment of Funds

- 6.1.1. Subject to the terms of clauses 6 and 17, the Commonwealth agrees to make a payment of Funds to the State for a Priority Project in accordance with Item J of the relevant Project Schedule once the State has satisfied the Payment Preconditions for that payment of Funds.
- 6.1.2. The Commonwealth is not required to provide any amount for a Priority Project in excess of the Funds for that Priority Project.
- 6.1.3. The Commonwealth is not required to make a payment of Funds to the State for a Priority Project unless:
- a. the State has completed, to the Commonwealth's reasonable satisfaction, all of the Payment Preconditions that are specified in the Project Schedule for:
 - i. that payment of Funds for that Priority Project (for the purpose of this clause referred to as the 'Subject Payment'); and

- ii. any other payment of Funds relating to that Priority Project, where such payment was scheduled in this Agreement to be made prior to the Subject Payment,

in accordance with any applicable performance measures specified in the Project Schedule;

- b. the State has no outstanding Project Reports for that Priority Project and no outstanding Reform Reports or audited financial Reports.

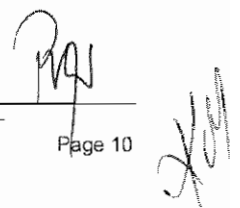

6.1.4. In addition, the Commonwealth may, at its discretion and following notification to the State, withhold part or all of the Funds that remain payable under this Agreement in the following circumstances:

- a. where an amount of Funds paid to the State is required under clause 6.3 to be repaid to the Commonwealth - until that amount is repaid to the Commonwealth;
- b. where the State has not provided an amount of State Contributions or obtained an amount of Other Contributions for a Priority Project by the date specified in Item D.2 of the Project Schedule for that Priority Project - until those State Contributions or Other Contributions are provided;
- c. where an amount is required to be paid by the State to the Commonwealth under any indemnity specified in a Project Schedule in respect of a Priority Project - until that amount is paid to the Commonwealth unless it notifies the State that the Commonwealth will reduce a future payment of Funds by that amount under clause 6.1.11.

6.1.5. Subject to clause 4.2 and any other rights the Commonwealth has to withhold or reduce a payment of Funds under this clause 6, the Commonwealth may, at its absolute discretion, withhold up to 10% of each payment of Funds that is payable under this Agreement during the period that:

- a. commences once a Reform Action is assessed under clause 3 and Schedule 3 as not having been satisfactorily completed, according to the agreed timelines indicated for the relevant Reform Milestone in Schedule 1; and
- b. continues until that Reform Milestone is subsequently assessed in accordance with clause 3 and Schedule 3 as having been satisfactorily completed.

6.1.6. If the Commonwealth intends to withhold all or part of a payment of the Funds for any reason it must give the State prior written notice of that intention. Upon receipt of such notice the State will have 20 Business Days to provide the Commonwealth with a written submission and the Commonwealth will consider this submission before deciding whether to continue the withholding of those Funds.

- 6.1.7. Where the Commonwealth has withheld all or part of a payment of Funds under this clause 6, it agrees to pay the State the withheld Funds within 30 Business Days after the 1st of a month that next occurs after the date that the basis for the withholding is assessed as having ceased to exist and provided that no other basis for withholding or deducting those Funds exists under this clause 6.
- 6.1.8. For the avoidance of doubt a decision to withhold Funding under this clause 6 may be subject to the dispute resolution process in clause 15.
- 6.1.9. The State agrees that:
- a. it will notify DEWHA in its Project Report for a Priority Project as to the amount of any interest the State has earned on the Funding provided for that Priority Project to date;
 - b. any interest it earns on the Funds provided in respect of a Priority Project may be treated as part of the Funds for that Priority Project and may only be used to complete that Priority Project;
 - c. the Commonwealth, after notification to the State, may reduce the amount of the Funds that remain payable under this Agreement in respect of a Priority Project by any interest earned by the State on the Funds the Commonwealth has paid in respect of that Priority Project.
- 6.1.10. The State agrees to use all reasonable efforts to achieve cost savings in its performance of each Priority Project, being savings as compared to the Project Cost for the entire Priority Project. The State agrees to notify DEWHA of any such cost savings and the Commonwealth may then, after notification to the State, reduce the amount of Funding that remains payable under this Agreement for that Priority Project by a proportion of the cost savings for that Priority Project that reflects the Funding as a proportion of the total costs of that Priority Project as specified in the Project Cost for the entire Priority Project. Alternatively, the parties may agree to apply any cost savings to the Priority Project.
- 6.1.11. If the State is required to pay an amount to the Commonwealth under any indemnity specified in a Project Schedule in respect of a Priority Project, the Commonwealth may deduct that amount from any future payment of Funds instead of requiring the State to make that payment.
- 6.2. Use of Funds**
- 6.2.1. The State may only use the Funds provided by the Commonwealth in respect of a Priority Project for that Priority Project and may only do so in accordance with the Project Cost for the Project.
- 6.2.2. The State agrees that, while the amounts of the Funding, State Contributions and any Other Contributions for a Priority Project may be different, it will spend

the State Contributions and any Other Contributions at the same rate over the life of the Priority Project as it spends the Funds unless otherwise agreed in a Project Schedule.

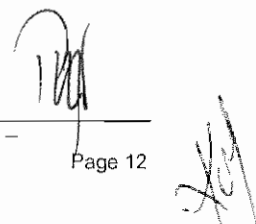

6.3. Unused or Misused Funds

- 6.3.1. If at any time the Commonwealth reasonably determines that the State:
- a. has Funding that it no longer requires to perform a Priority Project; or
 - b. has spent an amount of Funds other than in accordance with this Agreement,

then the Commonwealth may, at its sole discretion and after notification to the State:
 - c. reduce further payments of Funding to the State by up to that amount;
 - d. require the State to repay that amount of the Funds to the Commonwealth within 20 Business Days after the State receives a notice requiring that repayment; or
 - e. require the State to apply that amount of Funds to another Priority Project.
- 6.3.2. Interest will accrue (at the Reserve Bank of Australia's 90 day bank-accepted bill rate less 10 base points) on a daily compounding basis on any part of an amount that the State is required to repay under clauses 6.3, 17.1.4 or 17.2.3 and does not repay within 20 Business Days. The State acknowledges that any interest payable in accordance with clauses 6.3, 17.1.4 or 17.2.3 is a reasonable pre-estimate of the loss incurred by the Commonwealth due to the delay in the repayment of the outstanding amount.
- 6.3.3. If, at the completion of a Priority Project, the State has not spent all of the Funding that was provided for that Priority Project, the State agrees to return that unused Funding to the Commonwealth within 20 Business Days after the date that the Priority Project is completed.

6.4. State Contributions and Other Contributions

- 6.4.1. The State agrees to provide and use the State Contributions for each Priority Project in the amounts, and by the dates, specified in the Project Schedule for that Priority Project.
- 6.4.2. The State agrees to obtain and use any Other Contributions for each Priority Project in the amounts, and by the dates, specified in Item D.4 of the Project Schedule for that Priority Project.

6.5. Reimbursement Payments for State's Additional Net Costs

6.5.1. The Commonwealth agrees to pay the State any Reimbursement Payment that is required to be paid under this Agreement. The State may use a Reimbursement Payment for any purpose.

6.6. Taxation

6.6.1. Unless otherwise indicated:

- a. the State agrees to pay all taxes, duties and government charges imposed or levied in Australia or overseas in connection with the performance of this Agreement; and
- b. any consideration for a supply made under this Agreement is exclusive of any GST imposed on the supply.

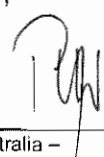

6.6.2. If one party (the supplier) makes a taxable supply to the other party (the recipient) under this Agreement, on receipt of a tax invoice from the supplier, the recipient will pay without setoff an additional amount to the supplier equal to the GST imposed on the supply in question.

6.6.3. No party may claim or retain from the other party any amount in relation to a supply made under this Agreement for which the first party can obtain an input tax credit or decreasing adjustment.

PART SEVEN - RECORDS, REPORTS AND AUDIT

7. Records

- 7.1.1. The State agrees to create and maintain, full and accurate accounts and records of its conduct of this Agreement including the:
- a. conduct and completion of each Priority Project and the Reform Requirements, including all of the Milestones;
 - b. receipt and use of Funding, State Contributions and any Other Contributions;
 - c. estimation of the Agreed Water Savings for each Priority Project;
 - d. any measurement and verification of the Actual Water Savings from a Priority Project and negotiated outcomes required under clauses 5.2.9 and 5.2.10;
 - e. all Water Entitlements that have been or are required to be Transferred to the Commonwealth for management by the CEWH;
 - f. creation, acquisition, use and disposal of Intellectual Property;

- g. creation, acquisition, use and disposal of any Construction Assets; and
- h. Additional Net Costs (if any).

7.1.2. The State agrees to retain records and accounts under clause 7.1.1 for a period of no less than 7 years after the achievement of all of the Priority Projects and Reform Requirements.

8. Reports

8.1. Provision of progress Reports

8.1.1. The State agrees to provide DEWHA with:

- a. Project Reports for each of the State's Priority Project;
- b. Reform Reports;
- c. audited financial Reports; and
- d. other Reports,

at the times, and containing the information, specified in Schedule 4 and the relevant Project Schedule.

8.1.2. The State acknowledges and agrees that DEWHA will provide all of the Reform Reports to the COAG Reform Council and/or the NWC for the purpose of assessing the State's achievement of its Reform Requirements in accordance with clause 3.

8.1.3. Where the State uses the Funding to provide a grant to a Proponent, the State agrees to ensure that it:

- a. obtains a report from the Proponent that contains substantially the same information, in respect of the Proponent's:
 - i. performance of a Priority Project; and
 - ii. receipt and expenditure of the grant provided by the State,as the State is required to provide to DEWHA under this Agreement; and
- b. reflects the relevant information from the Proponents' reports in the relevant Report the State is required to provide to the Commonwealth under this Agreement.
